## MEASURE IT RIGHT

To get an exact measurement it is important to only use the dosing device that is provided with the medicine. The Drug Facts label tells you how much medicine you should take based on your weight and/or age.

**FACT:** Household teaspoons come in various shapes and sizes, which means they hold different amounts of liquid.

## KNOW WHO TO ASK

Always talk with a parent or trusted adult to learn more about the responsible use of all medicines. Other resources include doctors, nurses, and pharmacists as well as your local poison center.

In 2011, America's poison centers managed over:

**260,000**  
 exposure cases involving children ages 6 to 19.

**143,000**  
 medication errors and misuse.

**DID YOU KNOW** that poison centers are staffed with experts including doctors, nurses, pharmacists, and toxicologists who can help answer general questions about medicines or can provide expert help over the phone if you come in contact with a poison.

**Program the Poison Help number, 1-800-222-1222, into your phone.**
